## German Give Away Trade Secrets.

How some of Germany's closely guarded trade secrets are being unwittingly disclosed by prisoners of war is told in official dispatches reaching here. In one instance, German prisoners, all expert makers of thermometers, have been put to work where their operations could be observed by skilled workmen, and as a result several methods of silencing bulbs with mercury, hitherto a secret in Germany, were discovered.

## SOROSIS

Burgundy—the newest color used in Women's Boots.

Burgundy color kid top, with dull vamp, makes a very rich combination, and is the last word in footwear.

It will be the only boot of this color for some time, as the Sorosis factory was the successful one in getting the first lot of this color from the tannery.

## PLANS FOR RAISING FUND TO AID STARVING PEOPLE

Committee of Young Woman Volunteers Will Receive Contributions for Syrians and Armenians.

Announcement was made today by the Washington auxiliary committee that the Misses Dorthea and Gwendolyn Denys, daughters of the Rev. F. Ward Denys of 1733 I street, will be in charge of the special committee of society girls who will help collect funds Saturday for the starving Armenians and Syrians.

This committee, among whom are a number of the debutantes of the winter, has volunteered to preside over the booths and tables in the various department stores, hotels, banks and government departments where contributions for this worthy cause will be received. Saturday was one of the two days designated by President Wilson to be observed as special Armenian and Syrian relief days.

Boy Scout headquarters here was asked today to furnish a corps of between thirty and fifty boys in uniform Saturday. They will act as official escorts for the girls at the various contributing centers, and assist them in any way required to receive and guard the funds.

The Washington auxiliary committee was further encouraged today to hope for a generous response from the people of Washington by the receipt of additional pledges from ministers and business men of co-operation in the relief efforts next Saturday and Sunday.

## ARMOR PLANT IS URGED BY PETWORTH CITIZENS

Association Also Indorses Free School Books and Addition to McKinley Manual Training.

The Petworth Citizens' Association at its meeting last night unanimously indorsed the effort to bring the eleven-million-dollar federal armor plate plant to Washington. This resolution was introduced by Joseph C. Suter. The association also went on record as favoring free high school textbooks and an addition to the McKinley Manual Training High School. The association unanimously passed other resolutions favoring the establishment of the federal navy experimental laboratory here, and favoring the operation of a ferry between the 7th street wharves and east Potomac Park.

The removal of trolley poles from Georgia avenue was recommended in another resolution introduced by Mr. Suter and, after a discussion, was passed. The association favored the establishment of the underground trolley system at least as far as Rock Creek Church road, but no definite action in this regard was taken.

A resolution introduced by E. W. Oyster protesting against a possible raise in fares on the street railways, and asking that seven tickets be given for a quarter, along with universal transfers, and recommending still better hours and pay for motormen and conductors was referred to the public utilities committee of the association.

John L. Carr introduced a resolution asking that another street in the Petworth section be cut through to 14th street. This was referred to the committee on streets, sidewalks and lights.

## Favors Municipal Hospital.

The association last night went on record as favoring the establishment of a municipal hospital, but at the same time took the stand that it will vigorously fight any further attempts to locate it at 14th and Upshur streets northwest. President C. J. James stated that it was well for the association to announce that it favored the establishment of the hospital, because of the misunderstanding that has arisen through its fight against its location at 14th and Upshur streets. A communication from the Columbia Heights Citizens' Association asking that a special committee be appointed to co-operate with a similar committee from the organization for the purpose of fighting the Board of amendment, which assesses half the cost of street improvements upon abutting property owners, was acknowledged, but the Petworth Citizens' Association will carry on this fight through the Federation of Citizens' Associations.

## Committee Chairmen Announced.

These committee chairmen for the coming year were announced: Membership, Samuel H. Moore; police protection, Wirt Taylor; streets,

sidewalks and lights, James O. Bobel; public utilities, G. Jackson; sewerage, sanitation and water, Fred W. Gault; laws and legislation, Frederick G. Unbe; finance, W. L. Gutelius; parks, Raymond E. Adams; laws and towers, John F. Daly; schools, Joseph C. Suter; publicity, D. A. Kildare; and entertainment, A. G. Cole.

In submitting his report of the school committee for the past year, Mr. Suter, the chairman last year, called attention to the crowded conditions of the

Petworth School, which has not been alleviated to any appreciable extent even by the opening of the new Park View School. Other committee reports from last year were heard from R. F. McIlroy, Lewis H. Russell, W. W. Chase, Dr. Charles W. Radley, J. W. East, Charles A. Andale and John S. Mills.

New members admitted last night were George W. Clarke, Sidney D. Bussell, John L. Mitchell and Clarence A. Rose.
